

## BMC WILL APPEAR AT BUSWORLD 2024 FAIR WITH ITS STATE-OF-THE-ART, MODERN AND INNOVATIVE BUSES

### BUSWORLD 2024

29-31 May 2024, İstanbul, İstanbul Expo Center

BMC, one of the leading commercial and military vehicle manufacturers in Türkiye, welcomes its visitors with its modern and innovative NEOCITY 8.5 M VIP, NEOCITY 8.5 M Electric, PROCITY 12 M Diesel and PROCITY+ 12 M Electric bus equipped with advanced technology at BUSWORLD 2024 to be held in İstanbul between 29-31 May 2024.

BMC, the brand of the firsts producing Türkiye's first natural gas-powered and fully low-floor urban buses, reinforces its leading position in the sector by exhibiting its buses developed with advanced technology and environmentally friendly solutions in accordance with the changing needs of modern cities.

BMC, which strengthens its position in both domestic and foreign markets, especially in EU countries, continues to take important steps for the sustainable transportation of the future.

BMC offers its customers modern buses equipped with the latest technology in 8.5 meters, 9 meters, 10 meters, 12 meters and 18 meters lengths, solo or articulated, with diesel, CNG and EV features in the most suitable way for the needs of cities.

BMC's state-of-the-art buses, which redefine mobility, sustainability and efficiency with their experience of more than half a century, await their visitors throughout the fair.

## PRESS RELEASE

### ABOUT THE VEHICLES TO BE EXHIBITED AT BUSWORLD 2024

#### NEOCITY 8,5 M VIP

The smallest member of the BUSWORLD Academy 2017 Best Design Award-winning NEOCITY family, NEOCITY 8,5 M VIP was specially produced for CIP and VIP use at airports. Neocity 8,5 M VIP provides comfortable and reliable transportation to its passengers with its ability to control the whole vehicle with the in-car camera, dual-circuit full-air type front and rear brakes, air-operated handbrake, front and rear axle design that provides cost advantage with passenger and weight optimization, and standing passenger carrying capacity of 21 people for 19, 20 and 21 people. BMC is also among the world's leading manufacturers of Apron buses, as well as being the second largest manufacturer in Europe.

#### NEOCITY 8,5 M EV

With its TM4 SUMO MD3000 permanent magnet asynchronous motor, NEOCITY 8,5 M EV has a maximum power of 235 kW. Neocity 8,5 M EV bus, which also has the lowest turning radius in its class thanks to its independent front axle, provides its users with comfortable driving even in the narrowest streets of the city.
