

BMC'S NEW GENERATION ECO-FRIENDLY BUS PROCITY+ 12 M EV WAS AWARDED THE DISTINGUISHED BUS WITH A UNIQUE DESIGN AT TRANSEXPO, THE PUBLIC TRANSPORT FAIR IN POLAND

TRANSEXPO 2024

16-18 October 2024, Poland, Targi Kielce

BMC's new generation environmentally friendly bus Procity + 12m EV was awarded the Distinguished Bus with a Unique Design at the Transexpo 2024 Fair held in Kielce, Poland, leaving many global competitors behind. The new generation buses of BMC, the brand of firsts in urban passenger transportation, attracted great interest at the fair.

BMC, one of Türkiye's well-established and pioneering industrial enterprises in the field of commercial vehicles and defense industry, continues to attract attention all over the world with its new commercial vehicles.

BMC, the brand of firsts in urban passenger transportation, exhibited its new generation PROCITY+ 12 M Electric and PROCITY 12 M Diesel buses equipped with advanced technology at the 17th International Public Transport Fair TRANSEXPO held in Kielce, Poland between October 16-18.

Procity + 12m EV won the award of Distinguished Bus with a Unique Design

BMC's new generation environmentally friendly bus **Procity + 12m EV** was awarded the **Distinguished Bus with a Unique Design**, leaving many global competitors behind. The PROCITY +12M EV, developed and produced by BMC in collaboration with ASELSAN, can recharge itself in a short break time of 8-12 minutes with the pantograph fast charging system mounted on its roof, without the need for anything to be done by the driver. PROCITY +12M EV, which can reach a range of 80 km with the 111.6 kWh LTO battery developed by ASELSAN, can offer uninterrupted service for up to 24 hours with short breaks with its practical and fast charging features in urban transportation. PROCITY + 12M EV provides comfortable and environmentally friendly transportation to its passengers with its advanced technology, electric traction system and zero carbon emissions.

BMC's high-tech buses, which redefine mobility, sustainability and efficiency with more than half a century of experience, attracted great interest from visitors at the fair, while BMC was also awarded the best stand award at the fair.

PRESS RELEASE

PRESS RELEASE

ABOUT BMC

With its PROCITY, NEOCITY and NEOPORT city bus family; BMC is the leading exporter of CNG city buses in Türkiye with its environmentally friendly CNG buses exported to countries such as Azerbaijan, Georgia, Serbia, Italy, Lithuania and North Macedonia.

Continuing diesel bus sales in Türkiye and other neighboring countries, especially in Europe; BMC is determined to achieve its growth and development targets by expanding its dealer and service network in countries such as Poland, Germany, France, Croatia and Denmark.

In addition, BMC, one of Europe's leading apron bus manufacturers, continues to increase its export success by exporting Türkiye's first domestic and national apron bus NEOPORT, which is actively used domestically, to countries such as Kazakhstan and Saudi Arabia.
